

Senior Controller at Ceradis

Ceradis started in 2005 with the development and marketing of innovative environmental friendly solutions for Plant Nutrition and Crop Protection in order to create safer food. It is a promising start up in the biotechnology industry. Ceradis products have a patented formulation, optimal activity of the ingredients and excellent handling characteristics for the end-users. Ceradis sells its products primarily in Europe and in LATAM, and has offices in the Netherlands and in Colombia. The activities and markets of Ceradis are expanding and therefore we are looking for a Senior Controller with entrepreneurial ambitions.

Job description

The senior controller of Ceradis will be in charge of:

- Day-to-day conducting the financial administration
- Having an up to date financial insight in Ceradis Group
- Supporting and providing accurate and complete monthly reports
- Supporting and providing accurate and complete year-end closing and IFRS consolidation
- Making yearly budgets and forecasts
- Analysing financial reports and making suggestions for improvements
- Reporting to the board of directors and shareholders
- Doing suggestions for the improvement of purchase, sales and inventory processes
- Proactively coming up with ideas regarding the expansion of the company (business development)

Our ideal candidate is

- A graduated register accountant with at least five years of experience
- Experienced in managing inventory, working capital and delivery processes
- An expert regarding the foundations of IFRS
- Internationally oriented, and has preferably lived abroad
- An entrepreneurial spirit who takes ownership, a real go-getter
- Is flexible in working hours as we have an international orientation
- Is flexible in activities as we are a small company and everyone chips in
- Hands-on and willing to fulfil practical tasks
- Fluent in Dutch, English and preferably Spanish

What we offer

- A controller function with enough time to be working on business development as well
- Being part of an entrepreneurial culture in which you can add significant value
- An international working climate with many opportunities for personal development
- A competitive salary
- The opportunity to help make farming more sustainable

Practicalities

- Based in Wageningen (Netherlands); travel can be expected
- Will report to the General Manager
